

## Information on sustainability measures at the facility

### **Destination & Community**

- fink offers guests the opportunity to support a local social project: by forgoing house-keeping services, a meal is donated to the Maira Hueber soup kitchen for the needy
- fink supports local charities or community events (through financial donations, sponsorships, and in-kind donations)
- fink collaborates with educational organizations to help young people acquire the skills and confidence they need for employment and trains apprentices
- fink provides guests with information on local ecosystems, cultural heritage, and visitor etiquette
- fink offers its staff free private health insurance
- Guests are offered tours and activities organized by local guides and businesses
- fink provides regular training for staff on how to contribute to making the facility more sustainable

### **Biodiversity & Ecosystem**

- fink offers bicycle parking
- fink offers e-bike rentals
- fink offers its guests the Brixen Card, which allows them to use all public transport in the entire region (trains and buses)

### **Energy**

- fink offers electric car charging stations nearby
- fink has herb gardens and organic farms that supply ingredients directly to the restaurant
- All suites are equipped with energy-saving switches (e.g., electricity controlled with a room card)
- The insulation of the roofs, floors, or walls of the facility was optimized during renovation
- LED lighting is used 100% in guest and public areas
- At least 80% of the food comes from the region of the facility (e.g., within 50 km of the facility's location)
- fink has implemented an energy system (e.g., the underfloor heating is used as a cooling system in summer, thus reducing the use of air conditioners)
- fink has motion detectors in public areas
- Vegan dishes are offered
- Vegetarian dishes are offered
- fink has a food waste policy that includes education, prevention, reduction, recycling, and disposal of food waste
- All hotel windows are triple-glazed

### **Waste**

- The cosmetic and personal care products offered to guests are free of animal testing and microplastics
- No single-use plastic toiletries – refillable dispensers are used throughout the facility.
- fink sets goals to reduce food waste
- fink uses only chemical-free cleaning agents, preferably with an eco-label.
- No single-use plastic cocktail stirrers are offered
- No single-use plastic straws are offered – grass paper straws are provided.
- No single-use plastic water bottles are offered
- No single-use plastic beverage bottles are offered
- fink has a recycling plan (e.g., common areas, kitchen) for at least four types of waste (glass, paper, plastic, organic)
- fink provides reusable cups (instead of single-use cups)

### **Water**

- fink's laundry ensures efficient consumption to avoid water waste
- Room cleaning is optional (e.g., linen change is reduced)
- fink manages and cleans its pools to reduce water waste
- fink uses only water-saving shower systems
- fink uses only water-saving toilet flushes
- fink encourages guests to reuse towels

### **Miscellaneous**

- fink used sustainable methods and materials during the last renovation
- fink participates annually in Earth Check certification
